NOTICE TO PROPERTY OWNER

_____ The property owner will be responsible for all underground utility lines. This includes, but is not limited to: any and all telephone/internet lines, satellite/cable TV, sprinkler lines, water and/or well lines, sewer pipes/lines, septic tank drains and associated plumbing, and personal power supply lines to any structures/fixtures on the property. All lines, pipes, drains, wires, and landscaping will be the responsibility of the Homeowner to repair.

_____ Under normal conditions, CNNGA will repair and clean up the area, to the best of their ability, at the time of installation. Thereafter, responsibility of the clean-up becomes the Homeowners. If abnormal yard conditions exist when the customer requests a service line to be installed, it will be the responsibility of the Homeowner for any and all repairs to the yard associated with the installation of the service line.

_____ In addition to the service line fee, the customer is also responsible for the $40.00 connection fee. In addition, the applicant must be on and burning gas within 90 days of gas being made available unless the time is extended due to unforeseen circumstances by CNNGA; or the actual cost of the line will be billed and paid in full before coming on as a new customer.
